

# Contest of Ideas Initiative

- International Idea Competition
- System of the Future World Order
- AI-Assisted Democratic Governance

# The Problem

- Human civilization faces systemic risks
- Geopolitical instability
- Crisis of democratic institutions
- Technological disruption from AI
- Fragmentation of global governance

Existing political systems are struggling to adapt

# The Core Idea

- Launch an international contest of ideas
- Discover breakthrough governance concepts
- Encourage interdisciplinary thinking
- Engage global intellectual participation
- Find an idea that unites our civilization

# The Vision

- A global intellectual movement
- Exploring the future architecture of civilization
- Connecting scientists, philosophers, technologists
- Developing future governance models

# Why Now

- Artificial Intelligence is transforming society
- Institutions struggle to adapt
- New governance thinking is required
- Opportunity for global intellectual collaboration
- The speed of development of the technological order is rapidly ahead of outdated socio-political habits.

# Project Format

- International open idea competition
- Participants submit visionary governance concepts
- Evaluation by international expert council
- Global discussion platform
- The start of the implementation of the ideas that won the competition.

# Global Participation

- Universities
- Think tanks
- Innovators
- Independent thinkers
- Open international participation

# Key Outcomes

- Global intellectual debate
- Discovery of breakthrough governance ideas
- Creation of international research network

# Long-Term Impact

- Foundation for new democratic models
- AI-assisted governance research
- Global civic collaboration
- Development of universal democratic transit technology

# Organizational Model

- Independent civic initiative
- Supported by fiscal sponsor
- International partners
- Volunteer research community

# Why Fiscal Sponsor

- Legal umbrella for international funding
- Grant administration
- Institutional credibility
- Financial transparency

# Initial Budget

- Estimated first phase: \$300k – \$500k
- Competition infrastructure
- Global outreach
- Expert council
- Prize fund

# Development Roadmap

- Phase 1 – Organizational launch
- Phase 2 – Global outreach
- Phase 3 – Competition stage
- Phase 4 – Publication of results
- Phase 5 - Create Idea Implementation System

# Strategic Opportunity

- Evolution into global think-tank platform
- Future governance research hub
- AI governance laboratory
